

CUSTOMER SOLAR – NET ENERGY METERING

Net Energy Metering (NEM)

Per Ordinance No. 1853, availability of [Schedule NEM \(Net Energy Metering Rider\)](#) is available on a first come, first served basis and will be available until such time as the total eligible customer generator capacity equals 5 percent of the City of Lodi’s aggregate customer annual peak demand. **Once Lodi reaches its cap, the Net Energy Metering Rider will be closed to new solar customers.**

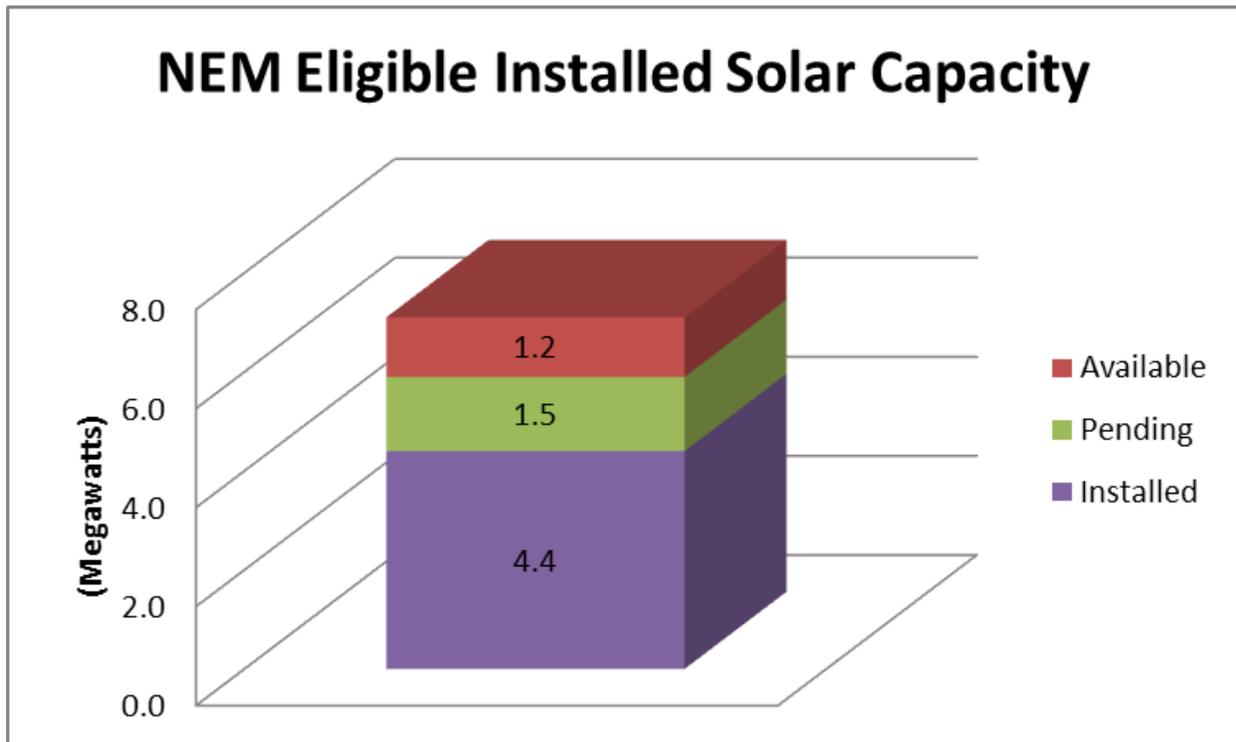

City of Lodi NEM Cap

5% of the City of Lodi’s aggregate customer annual peak demand = **7.1 megawatts (MW)**

Call Before You Sign

Please see below for the current status regarding Lodi’s progress in meeting its NEM cap. This information will be updated periodically. ***It is advised that you check with the City of Lodi Electric Utility (LEU) prior to signing any purchase and/or lease documents associated with a new solar system AND prior to submitting your solar system application to determine if you are eligible for NEM.***

Please call **(209) 333-6874** for the most current, up-to-date information.

Note: Pending applications are those applications submitted to LEU’s Engineering Division for review and approval.
