# Spring-Summer Activity Guide

MAY - AUGUST 2012

# Welcome...

26TH EDITION

CITY OF LODI  
**COMMUNITY**  
ACTIVITY GUIDE

## Dear Parks, Recreation and Cultural Services Patrons

You hold in your hands a gateway to a world of life-enriching activities, from sports to music to classes that will engage you or your child. This could be a stepping stone to a new career or hobby, an opportunity to make new friends or simply acquire a skill that makes your life more fulfilling.

Whatever it is, whatever your age, we're hoping you give the Activity Guide a close look. Our department works hard to assemble programs to meet the community's interests, and we're fortunate we're able to introduce you to so many high-quality instructors.

In addition, the guide has a calendar of events and schedules of City activities available to anyone without having to register.

So grab a seat and take a moment to look through these pages. Perhaps you'll find a class that will make you a better job candidate, make you feel more energized, or a sport that you or your child can share for years to come. Invest in yourself!

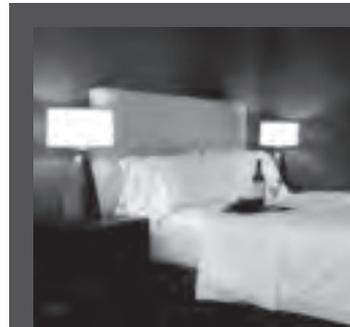

It's exciting to be part of a department with a long history of offering a wide variety of activities and program to the community. We're certain you'll find something that will excite you as well!

Sincerely,

Jeff Hood

**SQUARE DANCING AND ROUND DANCING**

Square dancing is four couples forming a square and dancing as a group. It is a physical activity, good for the mind, body and soul. It is smoke and alcohol free for a healthy environment. The calls coordinate the body and brain—physical fitness burns calories—slows and helps prevent loss of bone mass—and the social aspects of interacting in a square encourages many friendships.

Joe Vallery has over 40 year experience directing dance patterns for square dancing. He also has the experience for cueing round dancing, which is a ballroom type dance as everyone dances the same steps to the cues given to the rhythm of the music.

Recommended for ages 10 years and up. Partners not required.

## PIANO WITH VICTORIA

My non-traditional approach is especially appealing to people who relate to one or more of the following:

- I have just a little or no piano experience.
- I struggled previously with traditional lessons.
- I want to play just for myself or at casual parties, sing-alongs, church.
- I quit lessons because it was too hard/frustrating/couldn't play hands together/wasn't allowed to play music of my own choosing...
- I read music well, but I can't play a note without a written page in front of me
- I want to play with and without sheet music, and/or "lead sheets".

Play first – read notes a little later, after you are able to get around on the keys, playing music that sounds good. You'll discover what makes music "tick" by experiencing it. It's not mysterious! You will be guided through a wonderful musical journey where your hands will play your heart through Pop, Blues, Gospel, Classical, Accompaniments, Composition and Improvisation your first semester.

Foundation material kits including CD and DVD are \$55 once per semester. Accessory kits, less than the Foundation kits, vary in price and are usually not introduced in the first semester. Payment for the kits are directly to the instructor. You will be contacted by me as soon as you are enrolled. A 10% discount is offered if making a full payment for the entire semester. Otherwise, class may be paid in monthly installments.

**IMPROV COMEDY**

Fun, inspiring, freeing and hilarious; if these words sound interesting, then this workshop is for YOU! Improv Comedy, made famous from “Whose Line Is It Anyway...”, is one of the fastest growing skills to have in the entertainment business. Not to be confused with Stand-up comedy, Improv is where you make everything up as you go. The skills from this workshop help you think on your feet and adapt to any change in a situation. And it’s not only for actors, but also for anyone who is interested in becoming more outgoing, more comfortable in social situations or getting more self-esteem. Anybody can do this! Brent Tubbs, who performs with such groups as ComedySportz, The Second City L.A., and The Reduced Shakespeare Company, has worked and performed with some of the best improvisers in Los Angeles and is thrilled to bring this art form to Lodi. Through this workshop, you will learn the basics of improv and learn what it takes to perform in an improv show. You’ll laugh, you’ll cry (from laughing) and you will have the time of your life. **COME JOIN THE FUN!**

**YOU’RE ON THE AIR (HOW TO REALLY MAKE IT IN VOICE-OVERS!)**

VOICE-OVERS are hot today! You don’t have to be an actor to get voice-over work, but it certainly doesn’t hurt! With such notable talent as Morgan Freeman, Glenn Close, and Alec Baldwin lending their voices to commercials, films, and videos, one would think that it would be next to impossible to break into this field. Not so! You’ll learn about an exciting, new way to get around the competition and actually turn voice-overs into a thriving full or part-time business! Lisa Foster will discuss the voice-over business as a whole, the numerous opportunities, the incredible income potential, and will discuss the all important “demo” and how to have it produced. You’ll step up to the mic and do some practice recording, and best of all, you’ll hear the results!

### DECORATIVE PAINTING

Have you ever thought that Decorative Painting suggested painting simple flowers on a wooden or tin plate? Yes, it can be that and so much more. Modern Decorative Painting encompasses painting any subject on virtually any surface. You can create a portrait of the family pet on canvas, a fall or winter wall hanging, colorful leaves on fabric, a still life of fruit on a wooden plate, or landscapes on any material or surface. This is in addition to creating one of a kind wearable art on T-shirts, jeans or jackets. With the use of acrylic paints and simple step by step painting procedures, almost any decorative art project can be achieved. Use your own drawings or patterns supplied by the instructor. You pick the subject. Stop by during class hours on Monday and Thursday to observe the class in process.

### WIRE WRAP JEWELRY

Fun or elegant jewelry can be made with wire of all types: Sterling Silver, Copper, Brass, Art Wire. Each month a different pattern will be taught. Though each class builds upon what is taught in the previous month, each class can be taken without taking the other classes, and all are for beginners. In May and July, a traditional border wrap will be taught, suitable for all types of cut stones (cabochons). A different variation of this will be taught in each class. June will be a sculptured pendant, suitable for all types of stones. For August, a sculptural design utilizing a bead will be taught. Since this is a repeat of the very beginning class, advanced students will have the opportunity to make earrings from this pattern, while beginners will make a pendant. Information on wire, tools, materials sources, and design elements will be included. Students are encouraged to have their own basic tools (chain-nose pliers, flat-nose pliers, flush cutters – NOT SIDE CUTTERS). Some tools will be available for loan for first session of a student on a limited basis. Project packet will be available: \$10 for sterling silver kit, \$5.00 for copper kit. Silver prices are fluctuating daily; if cost of silver is over the estimate from this date of printing, a small surcharge may be necessary on the silver kit. Students may use their own wire and stones (please contact instructor prior to class to assure the suitability of products) (209.607.2669)

## NATURE PROGRAMS IN OUR COMMUNITY

### Lodi Lake Nature Area Docents- Volunteering at its Best!

If you love nature and children, and can walk a mile or two without problems, then consider joining the Lodi Lake Nature Area Docents, a group of volunteer naturalists.

This volunteer group has been serving Lodi since 1986. You don't need to know much about science, just have some time to donate and a willingness to learn about the area.

**Our mission:** To stimulate people of all ages to learn about and appreciate the 58-acre Lodi Lake Nature Area because of its unique riparian woodland ecosystem, which borders the Lower Mokelumne River at Lodi Lake Park.

**Our goal:** Our goal is two-fold:

- We strive to educate “young-at-heart docents” through monthly meetings that equip and stimulate volunteers to lead tours
- We strive to reach our community's students of all ages through nature tours of the Lodi Lake Nature Area.

Through engaging interpretive techniques, docents encourage students “to see, to understand, to love and protect” our local “island of plant and animal diversity” found at Lodi Lake Nature Area, a remnant of the rapidly vanishing riparian forests of the San Joaquin Valley.

**What Does it Take?** Please contact us for an interview if you are interested. Once you have been interviewed and accepted, you must pass a fingerprint and background check. A self-study natural history of the Mokelumne River and Lodi Lake binder prepares you with needed information. Pass a take-home test and you are ready! As a new docent, you will typically accompany some tours being led by more experienced docents till you are ready to lead your own. Qualified docents must then be willing to lead at least two tours monthly during the school year.

Docent meetings occur on the second Thursday of every month and take place at the Lodi Police Department's Community Room. Monthly programs focus on topics related to nature and the river area and help provide ongoing education. College students seeking community service may also be interested in applying.

### Lodi Lake Nature Area Docent Trail Tour

This visit to the Lodi Lake Nature Area brings to life those life-science concepts introduced in the classroom. Volunteer naturalist docents will lead the students in the discovery and appreciation of the wonders of the riparian habitat. Trail is 1½ miles, flat and suitable for wheelchairs. Tour takes approximately 1½ hours. One-month advance reservations required.

### Discovery Center — Natural History Museum

Following a short lunch, follow the trail tour with a visit to the Lodi Lake Discovery Center, where students can learn from the mounted collection of animal specimens, usually found along the river. Depending on grade level and class interest, the room can be interpreted to suit teacher needs.

### Watershed Ed

Docent presentation additionally can focus on appropriate watershed issues that relate to students' responsibility at home/school where urban/rural stormwater runoff is discharged to the river, often negatively impacting the water quality and natural environs of the river area. “The river is everywhere!” This presentation may be suitable for MS4 Stormwater Discharge Permit requirements. Check with your school's Stormwater Discharge Permit requirements.

One month advance reservations required.

**Fees:** Trail/Nature Center: \$2 Lodi Unified School District boundaries; \$2.50 per non-LUSD student. Adult chaperones are free. Groups of 15-20 students per docent.

**Times:** Trail tour: 9:30 a.m. to 11 a.m.; Discovery Center tour: ½ hour per group of 10 students.

**Site:** Lodi Lake Park — 1101 W. Turner Rd., Lodi. Docent meets the group at the Turner Road/Laurel Avenue corner, near east front playground.

**Chaperones:** The teacher and two adult volunteers are needed per class of 20 students.

**Book Tour:** Call (209) 339-8722 or email kgrant@lodi.gov. One month advance reservations required.

## PUBLIC SERVICE HELPS BUILD A BETTER COMMUNITY!

### GET INVOLVED!

#### California Inland Coastal Cleanup

##### Lodi Lake Park and Mokelumne River

**Next cleanup:** 9 a.m. to noon, Saturday, September 15, 2012.

Since 1985, a worldwide volunteer cleanup event occurs on the third Saturday of each September. Since 2003, the City of Lodi has hosted a California Coastal (Inland) Cleanup at Lodi Lake Park and on the Mokelumne River, within city boundaries. This annual park and river cleanup is an attempt to involve citizens in keeping their rivers and oceans free of inland trash.

In Lodi, much of the rain that falls on or flows to streets is discharged to the Mokelumne River. On the work day, volunteers are divided into teams that then pick up trash at Lodi Lake Park and along the Mokelumne River. Trash is then sorted, counted, documented and the data is sent to the California Coastal Commission. Students needing community service hours are encouraged to attend. Certificates are given to all participants.

Interested? For more details: (209) 327-2063.

#### Clean-A-Park

Community Service Groups! Opportunities abound for civic minded service groups, school groups, scouts and families to lend a hand and spend a day helping keep our Lodi Parks clean. Bags, borrowed gloves, tarps and grappers provided.

Interested? Call the Parks office for more information: (209) 333-6800, ext. 2454.

#### Clean-A-Curb

Protect our local waterways! Did you know that school playground litter can end up in our waterways?

Many of the City of Lodi's parks also act as stormwater basins to hold street runoff before it is discharged into other waterways. This stormwater is not treated! Take action on your school's campus by organizing a “Clean-A-Curb” for students to participate in after school.

As a practical way for students to celebrate Earth Day, earn community service hours, or for environmental clubs or After-School Programs to host a school wide community service project, contact the Public Works Department to learn how environmental stewardship can be taught through action. Stormwater education programs are also available for school or club presentations.

Interested? Call 327-2063 for more information. Gloves, bags, tarps, and grappers are provided for borrowing.

## SWIM LESSONS AT ENZIE/FIELD POOL AT BLAKELY PARK

Group lessons are limited to 6 students per instructor and are 25 min in length. Please refer to the activenet schedule to make your selections early. Swimmers of all ages can easily choose a class that will be motivating and challenging as well as appropriate for their present skill level. **Classes with 3 or less students may be combined or cancelled.**

### Parent and Me-Guppy (9-36 months)

Children work with their parent in the water to become comfortable in the pool, blowing bubbles, singing songs, playing games and practicing skills in preparation for swim lessons during their preschool years.

### Parent and Me-Shrimp (2-4 years)

Children work with their parent on basic skills, moving on their front and back, working towards independence from the parent to participating in a structured class.

### Level 1-Minnow

"Minnow" skills include safe entries and exits, water adjustment, submerging face, floating, locomotion with walking and kicking, and arm strokes.

### Level 2-Seahorse

### Level 5-Dolphin

This class provides further coordination and refinement of strokes. Students will demonstrate the survival float, deep water bobbing, refined breathing, standing dive, build endurance by swimming elementary backstroke, front and back crawl, basic breaststroke.
