# Executive Summary

## AP-05 Executive Summary - 24 CFR 91.200(c), 91.220(b)

### 1. Introduction

In order to be eligible to receive Community Development Block Grant (CDBG) funds, the City of Lodi must submit a Consolidated Plan to the Department of Housing and Urban Development (HUD) every five years, and is required to update that plan annually. The Consolidated Plan is an assessment and analysis of local conditions and issues related to housing, homelessness, community development, and economic development. Utilizing a comprehensive outreach and citizen participation process, the Consolidated Plan describes priority needs facing the community and develops strategies to address those needs. This 2015 Annual Action Plan is the second of five required annual updates to the 2014-2018 Consolidated Plan.

The annual Plan also identifies funding priorities and details the projects proposed to receive Federal funds under the CDBG Program, the State HOME Investment Partnership (HOME) Program and the Section 108 Loan Guarantee Program.

### 2. Summarize the objectives and outcomes identified in the Plan

The Needs Assessment within the 2014-2018 Consolidated Plan identified several target populations:

- Extremely low-income and very low-income households;
- Seniors;
- Youth, primarily ages 6 – 17;
- Persons with disabilities; and
- Foster youth.

The Needs Assessment also identified several types of projects and services that are needed in the community, including the following:

- Public facilities (either new or upgrades/expansions to existing facilities), including community centers, youth facilities, community gardens and one-stop service centers;
- Affordable housing programs for new housing construction, the preservation and rehabilitation of existing rental housing, emergency housing repairs, down-payment assistance and tenant-based rental assistance;
- Crime prevention activities to provide resources to support law enforcement and crime prevention programming in designated neighborhoods;
- Public improvements, especially those focused on increasing accessibility, such as ADA curbs ramps and sidewalk infill, and storm drainage and flooding improvements;

- Public services for a wide range of populations, including seniors, youth, disabled persons, homeless households, foster youth, displaced workers, and households with fair housing issues;
- Employment development services to provide training and to support job creation.

Through the full five year term of the Consolidated Plan, the City of Lodi anticipates funding projects related to all of these needs, although available funding resources, community-based organization partnerships, and market conditions may ultimately limit the City's ability to fund some project types.

Given the City's relatively small CDBG allocation, funds for affordable housing or other large capital improvement projects will need to come from other sources such as the State HOME Program and HUD's Section 108 Loan Guarantee Program.

### **3. Evaluation of past performance**

The City of Lodi received \$602,382 in CDBG entitlement funds In FY 2014/15. The City funded 5 public service programs. The funding for these programs encompassed a variety of services to benefit youth, needy families, seniors, homeless persons, and other special needs groups. Award amounts ranged from \$1,500 to \$42,000.

The City also supported community development projects based on clearly identified needs. Among these initiatives were programs that focused on handicap accessibility projects and public infrastructure improvements in low-income neighborhoods. Both the public service programs and the community development projects were based on priorities identified in the Consolidated Plan.

### **4. Summary of Citizen Participation Process and consultation process**

Two of the formal objectives of the Plan are to: 1) promote citizen participation in the development of local priority needs and objectives; and 2) encourage consultation with public and private agencies to identify shared needs and solutions to persistent community problems.

The Neighborhood Services Division of the Community Development Department invites the community to provide input on the way grant funds from the HUD are spent. This Citizen's Participation Plan outlines the way the City communicates with residents regarding the use and expenditure of HUD funds.

Community and neighborhood meetings are organized by City staff and/or by local community-based organizations to seek community input and identify community needs. These meetings serve several purposes:

- Obtains community input about funds should be spent;
- Solicits information about neighborhood needs;
- Builds a sense of community among neighborhood residents;
- Encourages community empowerment and greater community voice;
- Provides neighborhoods with information about city services.

The City continues to address potential gaps in the delivery system. The following are a few examples of efforts to overcome gaps in the institutional structure and to enhance coordination include:

- The Neighborhood Services Division staff work with the City's Finance, Parks Planning, and Public Works Departments to ensure that capital improvement projects are on schedule, and that invoices are paid in a timely manner.
- The Neighborhood Services Manager participates in the following the community/collaborative committees on a regular basis:
  - San Joaquin County Emergency Food and Shelter Board
  - "Hand Up" Homeless Outreach Group
  - City of Lodi ADA Committee/Citizen Advisory Panel
  - Lodi Improvement Committee
- The Neighborhood Services Manager is involved in the update of the City's Housing Element, particularly in the discussions surrounding multi-family and affordable housing, and a review of existing HUD-funded housing programs and an evaluation of their effectiveness.
- The Neighborhood Services Manager is leading the development of an Analysis of Impediments to Fair Housing Choice.

## **5. Summary of public comments**

At the first City Council Public Hearing on April 1, 2015, a total of five people spoke in support of the various organizations and proposed projects and activities. One comment was received prior to the opening of the Public Hearing in regards to one of the applicants that was not being recommended for funding.

**6. Summary of comments or views not accepted and the reasons for not accepting them**

The City has not received any public comments that were not accepted.

**7. Summary**

The City Council was supportive of the recommendations for allocation of CDBG funding that were presented to them at the Public Hearing. All but one member of the public spoke in favor of the various recommendations. One applicant that was not being recommended for funding spoke about the services that her organization provides to needy families and individuals within the community and commented that this is the second year in a row that she has not been awarded funding. City staff reiterated to the City Council that this was due, primarily, to the CDBG regulations that places a 15 percent cap on funding for public service activities and not the validity of the applicant's request for funding. Staff went on to explain that the impact of the public services cap on funding recommendations that can address the priority needs within the community is one of the primary reasons why the 2015/16 Action Plan includes the authorization for staff to pursue the creation of a Neighborhood Revitalization Strategy Area.

## **AP-10 Consultation – 91.100, 91.200(b), 91.215(l)**

### **Introduction**

In preparing the Action Plan, the City consulted with a variety of agencies, including local and regional community-based organizations, the Housing Authority of the County of San Joaquin, and many others.

The goal of the consultation process was to provide detail of the priority needs identified in the Consolidated Plan and how those agencies best could focus their programs and activities to help address those priority needs and to explore opportunities for coordination to improve availability and access to services.

### **Provide a concise summary of the jurisdiction’s activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(l))**

City staff has been meeting with several local health, mental health and service agencies to explore opportunities to increase service delivery through mobile and fixed locations in or at least closer to the neighborhoods where the clientele reside.

### **Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness.**

The City of Lodi will continue to work as part of the San Joaquin County Continuum of Care (CoC) in 2015-16. The CoC is currently administered by the San Joaquin County Community Development Department, with several local agencies and organizations receiving funding.

The City’s efforts to address the needs of homeless persons have included participation and support of “A Hand Up”, a local homeless advocacy and outreach group made up of social service providers and faith-based organizations that meet monthly to discuss homeless issues and effective ways of addressing them.

The City has also been working with a Homeless Task Force made up of key City staff, representatives from the Salvation Army and local faith-based organizations, and the Lodi Community Foundation, a local philanthropic organization. Led by the Lodi Police Department, this task force has built consensus and support to explore a number of short- and long-range solutions to reduce homelessness and mitigate its effect on the community.

**Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards for and evaluate outcomes of projects and activities assisted by ESG funds, and develop funding, policies and procedures for the operation and administration of HMIS**

The City of Lodi does not have sufficient population to receive Emergency Shelter Grant (ESG) funding directly. The San Joaquin County Neighborhood Preservation Division administers several federal grant programs that provide direct assistance to homeless individuals and families. They include several Supportive Housing Programs (SHP) and a Shelter Plus Care (SPC) Program. The SPC program provides rent assistance for disabled homeless individuals. Supportive Housing Programs provide rent assistance and supportive services to homeless families and individuals to assist them in making a successful transition from homelessness to independent living. Funds for these programs are received through HUD's Continuum of Care Homeless Assistance Grant Application process.

## Expected Resources

### AP-15 Expected Resources – 91.220(c) (1, 2)

#### Introduction

The City of Lodi will have a total of \$613,405 in new CDBG funds for program year 2015-2016. Allocation of funds and assignment of priorities for funding are based upon the national goals set forth by HUD regulations, and local goals for housing and community development. Local goals, consistent with HUD regulations, focus on building up and improving the City's residents and neighborhoods.

In addition to the CDBG funding that Lodi receives as an Entitlement community, Lodi has been awarded State HOME funding for a First Time Home Buyer Program. The allocation of State HOME funds (\$700,000) will be available from 2013-2016. The City intends on pursuing additional funding through the State HOME Program, Cal-Home, and other state and federal resources as may be appropriate

In 2015-16, the City plans to pursue funding through the Section 108 Loan Guarantee program. The specific amount and use of the loan proceeds will be determined during the plan year. The City will amend the annual Action Plan to document the use. Possible uses being considered are: single-family acquisition/rehabilitation/resale program, multi-family housing, and/or economic development (job creation).

**Table 5 - Expected Resources – Priority Table**

**Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied.**

The CDBG program does not have a matching requirement. However, in evaluating the proposals for CDBG funding each year, the City uses match funds as a factor in determining recommended allocations.

**If appropriate, describe publically owned land or property located within the jurisdiction that may be used to address the needs identified in the plan.**

As of the writing of this Plan, there was not anticipated to be any publicly-owned land or property within the City that would be used to address identified needs. The City may use some CDBG funding to acquire such land over the course of the planning period.

## Annual Goals and Objectives

### AP-20 Annual Goals and Objectives - 91.420, 91.220(c)(3)&(e)

Each activity being funded in the 2015-16 Plan will correspond to one of the following two priorities:

- Build Healthy Communities; and
- Expand Economic Opportunities.

Those priorities align closely with the City's Mission Statement which reads, "The City of Lodi's purpose is to enhance the quality of life for Lodi residents, reflecting our high community standards" and the overall objective to provide the citizenry a better, more attractive, and healthier place in which to live.

In addition, each activity includes a goal that best reflects what the City of Lodi is seeking to achieve through the Consolidated Plan. The goals to be addressed in 2015-16 are:

- Improve Accessibility
- Construct/Upgrade Public Facilities
- Address Blight and Nuisance
- Improve Access to Public Services
- Preserve Existing Affordable Housing
- Expand Financial Opportunities
- Produce New Affordable Housing

### Describe the reasons for allocation priorities and any obstacles to addressing underserved needs

In making project recommendations, consideration was given to a variety of thresholds that projects must meet to comply with CDBG objectives, including meeting one of the national objectives and addressing one of the community priorities set out in the Consolidated Plan. Staff also took into account activity need and justification, cost reasonableness and effectiveness, activity management and implementation, experience with similar activities, past performance, leveraged funds, and completeness of the application.

In addition, the City looked at three supplemental factors that could increase the score for certain applications. The first was whether the applicant requested funding from the City of Lodi in the prior year and was not awarded. The second was whether the program/project provide specific benefit to aid the residents in the neighborhoods the City has identified as Racially/Ethnically Concentrated Areas of Poverty (RCAP/ECAP). The third was whether the program/project meet any of the high priority goals identified in the 2014-2018 Consolidated Plan.

Project recommendations are for those projects determined most likely to be successful and maintain compliance with CDBG regulations.

While there are several constraints to meeting the needs of low-income residents, the primary obstacle is that there is a lack of funding to fully address all needs. The economic challenges facing the nation

have forced many nonprofits to cut services at a time when governmental entities and others are least able to provide them.

A second obstacle to meeting underserved needs is that the location of many available services is in the City of Stockton. Lodi works closely with the regional transit agencies to improve access, and there are several daily public transportation linkages between Lodi and downtown Stockton. The City has also encouraged nonprofit agencies to operate satellite offices within Lodi.

Another obstacle is the number of nonprofits that need assistance with basic management and fiscal policies. New nonprofits have formed in Lodi and throughout the region, and they have small but passionate staffs and volunteers devoted to a variety of issues. Unfortunately, most new nonprofits do not have the capacity to meet the financial and reporting requirements of CDBG and other grant programs, and may need basic assistance securing tax-exempt status, setting up bookkeeping systems, and applying for grants.

## AP-50 Geographic Distribution – 91.220(f)

### Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed

While Lodi has used a need-based strategy for selection of projects and activities, the greatest need has historically been identified to be within the low-income Target Area. Specific attention will be focused on one Census Tract within our Target Area (45.02) that was recently identified as a Racially Concentrated Area of Poverty (RCAP) and an Economically Concentrated Area of Poverty (ECAP).

### Geographic Distribution

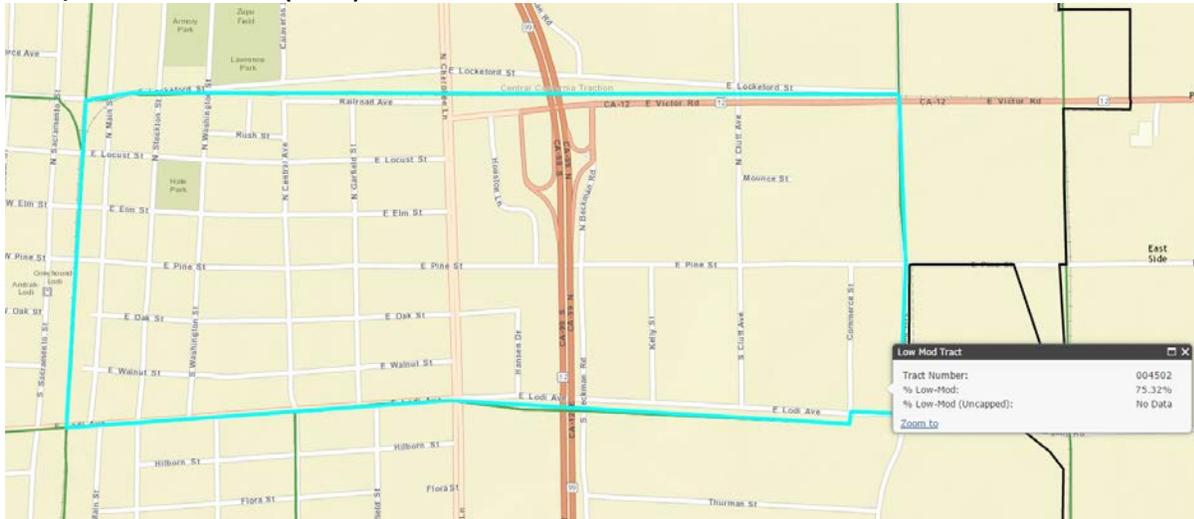

Target Area	Percentage of Funds
RCAP/ECAP Census Tract (45.02)	30%

Table 10 - Geographic Distribution

### Rationale for the priorities for allocating investments geographically

Areas of concentrated poverty generally have less private investment from financial institutions, grocery stores and other retail outlets. With less competition, businesses like convenience marts and check cashing companies are able to charge more for goods and services and low-income people end up paying more for basic necessities.

### RCAP/ECAP Census Tract (45.02)

## Affordable Housing

### AP-55 Affordable Housing – 91.220(g)

#### Introduction

Although the Consolidated Plan and Action Plan focus on affordable housing, the City's only HUD funding source is CDBG, which limits the amount of funding that can be spent on affordable housing by prohibiting new construction of housing. (Other HUD programs, such as HOME, are specifically targeted to affordable housing.) The City's strategies related to CDBG-funded affordable housing efforts relate to maintaining affordability for homeowners. Other funding sources are provided to support affordable housing as available.

Total	8

Table 12 - One Year Goals for Affordable Housing by Support Type

#### Discussion

For 2015-16, the aforementioned number of households assisted relies strictly on the ability for the City to get the FTHB Acquisition/FTHB Acquisition with Rehab activities, and the partnership with Habitat for Humanity up and running in the Program Year.

## **AP-60 Public Housing – 91.220(h)**

### **Introduction**

The Housing Authority of the County of San Joaquin (HACSJ) is the public housing agency serving the City of Lodi. HACSJ is independent of the City of Lodi, and the City retains no control over their funding or implementation of programs.

### **Actions planned during the next year to address the needs to public housing**

Please refer to the HACSJ Public Housing Authority Annual Plan for information on the ways that HACSJ plans to address public housing needs.

### **Actions to encourage public housing residents to become more involved in management and participate in homeownership**

HACSJ encourages public housing residents to participate in policy, procedure, and program implementation and development through its Resident Advisory Board. HACSJ also distributes a newsletter to all residents, which contains relevant news, information on training and employment opportunities, and other community resources available to public housing residents. Public housing residents also participate in the development of the HACSJ's five-year and annual plans. The Resident Services Division distributes a survey to prioritize resident needs and schedule short- and long-term improvements.

### **If the PHA is designated as troubled, describe the manner in which financial assistance will be provided or other assistance**

HACSJ is not designated as "troubled."

### **Discussion**

A wealth of information on HACSJ and their programs, housing resources, budgets, and financial planning and reporting is available on their website at [www.HACSJ.org](http://www.HACSJ.org).

## **AP-65 Homeless and Other Special Needs Activities – 91.220(i)**

### **Introduction**

The City's strategy related to the needs of the homeless, those at risk of homelessness, and other special needs populations is focused on funding supportive services in Lodi.

### **Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including:**

#### **Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs**

The City will remain involved in the County Emergency Food and Shelter Program Board and will continue participation in monthly meetings with the local homeless outreach group, "A Hand Up" that works directly with the unsheltered homeless population.

The City will also remain involved in the planning and execution of the County-wide Point-in-Time Homeless Count that will take place in 2015 and 2017.

Additionally, the City is participating in a collaborative effort along with local service providers and faith-based organizations to better coordinate the variety of activities and services that are targeted to the homeless community.

#### **Addressing the emergency shelter and transitional housing needs of homeless persons**

The City will maintain current levels of support in homeless transitional and permanent housing programs.

#### **Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again**

The City will attempt to create additional beds for chronically homeless persons through two primary strategies:

- (1) having the CoC apply for additional new Shelter Plus Care funding that will target the chronically homeless, and
- (2) increasing the number of beds for the chronically homeless by modifying existing Shelter Plus Care programs that do not specifically target chronically homeless persons. This second strategy would be achieved by providing chronically homeless persons with a priority when filling vacancies in non-targeted Shelter Plus Care programs as they occur.

The City will work closely with the CoC toward meeting this goal.

**Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.**

The City plans to pursue funding for Tenant-Based Rental Assistance Program in future years to ease the cost-burden for the most impacted households in the extremely low-income and the very low-income range and to continue to support service providers that serve that population.

Foster Care programs in San Joaquin County are overseen by the Human Services Agency. In California, state law requires public foster care programs to provide an Independent Living Program and that a transition plan be formulated for all youth preparing for emancipation. The City will continue to work with the Human Services Agency and the CoC members directly impacted by discharges, toward developing and implementing written protocols designed to codify current practices that prevent persons leaving foster care directly to homelessness.

**Discussion**

The City does not administer the Housing Opportunities for Persons With AIDS (HOPWA) Program, but there is coordination and contact with the San Joaquin AIDS Foundation and the Continuum of Care that administers those funds for the County.

<b>One year goals for the number of households to be provided housing through the use of HOPWA for:</b>	
Short-term rent, mortgage, and utility assistance to prevent homelessness of the individual or family	0
Tenant-based rental assistance	0
Units provided in housing facilities (transitional or permanent) that are being developed, leased, or operated	0
Units provided in transitional short-term housing facilities developed, leased, or operated with HOPWA funds	0
<b>Total</b>	<b>0</b>

## **AP-75 Barriers to affordable housing – 91.220(j)**

### **Introduction**

The City identified public policy factors that are barriers to affordable housing in the process of drafting its 2010-2016 Housing Element update. Notable barriers included:

- Land use controls. Zoning designations affect the availability of land suitable for multi-family development.
- Residential development standards, which control the type, location, and density of residential development in Lodi. Parking requirements, building setbacks, height limits, and open space requirements are essential to ensuring that Lodi remains a safe and enjoyable place to live, but may constrain the density at which land is developed.
- Design guidelines, which control the appearance of new development. The requirements of design guidelines may slightly increase the cost of building new housing.
- Site improvement, development impact, and processing fees. These fees can add significant cost to developing new housing. Developers must often pay for new roadway, sewer, water, and park facilities, along with miscellaneous other fees. There are also costs associated with getting projects approved by the City and other agencies.
- Permit and approval process. In addition to the cost of fees on new projects, the amount of time required to process them varies by project, and the developer generally must pay holding costs, such as property taxes, during this time.

### **Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment**

In 2015-16, the City will complete the process to review and update the Housing Element again, and develop an Analysis of Impediments to Fair Housing Choice. Any barriers to affordable housing identified through those documents will be addressed within the period of this Consolidated Plan.

### **Discussion**

## **AP-85 Other Actions – 91.220(k)**

### **Introduction**

While there are several constraints to meeting the needs of low-income residents, the primary obstacle is that there is a lack of funding to fully address all needs. The economic challenges facing the nation have forced many nonprofits to cut services at a time when governmental entities and others are least able to provide them. In response to the level of need, the City has maintained its commitment to providing local funding to nonprofits; even though budget cuts have been required in a number of areas. The City also supports nonprofits' efforts to raise private funds, in part through providing direct funding and in-kind services to special events, including fundraisers.

Another obstacle to meeting underserved needs is that the location of many available services is in the City of Stockton. Lodi works closely with the regional transit agencies to improve access, and there are several daily public transportation linkages between Lodi and downtown Stockton. The City has also encouraged nonprofit agencies to operate satellite offices within Lodi

### **Actions planned to address obstacles to meeting underserved needs**

In 2015-16, the City will support the following programs to address underserved needs:

- The Salvation Army's Tutoring and Mentoring Program that serves the low-income, predominantly Hispanic population from the RCAP/ECAP area.
- San Joaquin Fair Housing's housing counseling services.
- Second Harvest Food Banks services to the needy families within the Target Area.
- Emergency Food Bank's Mobile Farmer's Market that serves the low-income, predominantly Hispanic population from the RCAP/ECAP area.
- Lodi Gang Reduction Intervention Prevention (LodiGRIP) Program that serves predominantly Hispanic youth and their families that are at-risk of gang influence and activities.

### **Actions planned to foster and maintain affordable housing**

In 2015-16, the City will offer the following programs to foster and maintain affordable housing:

- The City's HOME grants will provide first-time homebuyer assistance in the form of a downpayment loan to an anticipated 3 households.
- The City is pursuing a partnership with Habitat for Humanity for an Acquisition and Rehab Program that will allow at least 10 vacant and/or foreclosed properties to be purchased and rehabilitated as affordable housing.

### **Actions planned to reduce lead-based paint hazards**

In 2015-16, the City will offer the following programs to reduce lead-based paint hazards:

- The City will continue to provide lead-based paint testing as a component of its housing repair and rehabilitation programs when required by HUD regulations. Given the age and condition of Lodi's housing stock, there are a significant number of homes where lead-based paint testing is needed.

### **Actions planned to reduce the number of poverty-level families**

In 2015-16, the City will offer the following programs to reduce the number of poverty-level families:

- Lodi's goals include several that align with the goal of reducing poverty, including creating new affordable housing, expanding housing and services for the homeless, creating new local jobs, and providing social services. The City plans to fund specific activities that address each of these goals during the Consolidated Plan timeframe. For 2015-16, the City will provide assistance to first-time home buyers to acquire and rehabilitate affordable housing through a grant of State HOME Program funding and through a partnership with Habitat for Humanity.

### **Actions planned to develop institutional structure**

In 2015-16, the City will continue to support and assist the service providers within our jurisdiction and to assess changes in needs on an on-going annual basis.

### **Actions planned to enhance coordination between public and private housing and social service agencies**

The City will continue to participate in regional coordination of services through the Emergency Food and Shelter Program Board and other networking opportunities.

### **Discussion**

## Program Specific Requirements

### AP-90 Program Specific Requirements – 91.220(I)(1,2,4)

#### Introduction

The program-specific requirements that apply to the City are those for the CDBG program.

#### Community Development Block Grant Program (CDBG)

##### Reference 24 CFR 91.220(I)(1)

Projects planned with all CDBG funds expected to be available during the year are identified in the Projects Table. The following identifies program income that is available for use that is included in projects to be carried out.

1.	The total amount of program income that will have been received before the start of the next program year and that has not yet been reprogrammed;	0
2.	The amount of proceeds from section 108 loan guarantees that will be used during the year to address the priority needs and specific objectives identified in the grantee's strategic plan	0
3.	The amount of surplus funds from urban renewal settlements	0
4.	The amount of any grant funds returned to the line of credit for which the planned use has not been included in a prior statement or plan	0
5.	The amount of income from float-funded activities	0
<b>Total Program Income</b>		<b>0</b>

#### Other CDBG Requirements

1. The amount of urgent need activities

#### Discussion

The City calculates its low-income benefit on a one-year timeframe.
