Winter - Spring Activity Guide

JANUARY - APRIL 2012

Welcome...

25TH EDITION

CITY OF LODI
COMMUNITY
ACTIVITY GUIDE

Dear Parks, Recreation and Cultural Services Patrons

It is soon to be Winter again! Much like last year we have had an almost instant change of season as we have gone from Summer to Fall in a few short days. As winter is upon us, we hope that you will take some time to participate in our seasonal offerings for this coming year.

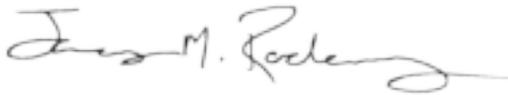

By the time you receive this catalog, we will have launched our new department website. Please come find us through the City of Lodi home page at www.lodi.gov. The new web page will be an easier way to find and sign-up for all of the programs and events we have to offer.

We want to thank you, once again, for your patronage. As we are here to service the community, we look forward to providing new and interesting programs as well as the classes and activities that you have made popular over the past couple of years.

We hope that, once again, you find programs that you enjoy in this season's catalog. As always, if there is something you think we should offer that you do not find, we hope to hear from you.

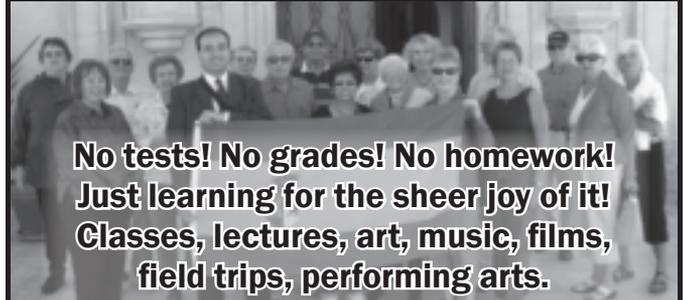

We hope your holidays will be filled with you this season and we look forward to seeing you at our programs.

Sincerely,

James M. Rodems
Director

This class is perfect for adults who have never had ballet classes or for those who would like to begin again after an absence of years. Ballet exercises and steps will be chosen to enhance the fitness and coordination of the adult dancer, while stressful steps and positions will be avoided. BALLROOM DANCE

The Sady's have been teaching at Hutchins Street Square since 1999, specializing in social ballroom dancing, dances that fit on a crowded dance floor. They don't have their dancers memorize choreographed routines, but teach American style steps and techniques that are universal wherever ballroom dancers gather, are easy to remember and fit into any dance setting. It takes most people several sessions to master Level One basics for the six dances. For those that do, we have Level Two classes, expanding on the step patterns for a well rounded ballroom dance education. The exercise is good and not overly strenuous. If you have been on the sidelines, admiring others enjoy moving to the music with style and grace, why not join them? It's fun! **Fee is per couple.**

LODI PROMENADERS

SQUARE DANCING AND ROUND DANCING

Square dancing is four couples forming a square and dancing as a group. It is a physical activity, good for the mind, body and soul. It is smoke and alcohol free for a healthy environment. The calls coordinate the body and brain—physical fitness burns calories—slows and helps prevent loss of bone mass—and the social aspects of interacting in a square encourages many friendships.

Joe Vallery has over 40 year experience directing dance patterns for square dancing. He also has the experience for cueing round dancing, which is a ballroom type dance as everyone dances the same steps to the cues given to the rhythm of the music.

Recommended for ages 10 years and up. Partners not required.

WRITING TO HEAL

Trauma is a certainty of life; healing isn't. However, there are a number of ways a person suffering from pain or loss can regain control and develop a purposeful, passionate life again. There is a great deal of evidence that writing can hasten the healing process. This course offers guidance in implementing a writing program for the express purpose of rediscovering hope, health, and joy. Whether the loss is one of illness, divorce, death of a loved one, or another traumatic experience, the techniques taught here will help you to move beyond judgment, and learn to live fully each day. The class is open to caregivers as well as those suffering trauma. (note: the instructor, Linda Abbott Trapp, PhD, is a former Dean of the California School of Professional Psychology, and has had a counseling practice in several states and abroad. **A supply fee of \$10 is payable to the instructor the first day of class.**)

CHILDREN'S SHOW CHOIR

The choir is a fun environment where they will learn to perform songs as a group, learning harmonies and choir techniques in a Broadway musical style. They have the opportunity to interact with kids their age and learn how to sing in a group. If a child likes shows like Glee or even High School Musical they would love this class. Once songs are learned then students will perform them with choreography and movements. The choir will be one hour a week and will have enough spots for more than 32 students in each class. **A 10% discount is offered for semester pre-paid in full.**

Not to be confused with Stand-up comedy, Improv is where you make everything up as you go. The skills from this workshop help you think on your feet and adapt to any change in a situation. And it's not only for actors, but also for anyone who is interested in becoming more outgoing, more comfortable in social situations or getting more self-esteem. Anybody can do this! Brent Tubbs, who performs with such groups as ComedySportz, The Second City L.A., and The Reduced Shakespeare Company, has worked and performed with some of the best improvisers in Los Angeles and is thrilled to bring this art form to Lodi. Through this workshop, you will learn the basics of improv and learn what it takes to perform in an improv show. You'll laugh, you'll cry (from laughing) and you will have the time of your life. **COME JOIN THE FUN!**

YOU'RE ON THE AIR (HOW TO REALLY MAKE IT IN VOICE-OVERS!)

VOICE-OVERS are hot today! You don't have to be an actor to get voice-over work, but it certainly doesn't hurt! With such notable talent as Morgan Freeman, Glenn Close, and Alec Baldwin lending their voices to commercials, films, and videos, one would think that it would be next to impossible to break into this field. Not so! You'll learn about an exciting, new way to get around the competition and actually turn voice-overs into a thriving full or part-time business! Lisa Foster will discuss the voice-over business as a whole, the numerous opportunities, the incredible income potential, and will discuss the all important “demo” and how to have it produced. You'll step up to the mic and do some practice recording, and best of all, you'll hear the results!

DECORATIVE PAINTING

Have you ever thought that Decorative Painting suggested painting simple flowers on a wooden or tin plate? Yes, it can be that and so much more. Modern Decorative Painting encompasses painting any subject on virtually any surface. You can create a portrait of the family pet on canvas, a fall or winter wall hanging, colorful leaves on fabric, a still life of fruit on a wooden plate, or landscapes on any material or surface. This is in addition to creating one of a kind wearable art on T-shirts, jeans or jackets. With the use of acrylic paints and simple step by step painting procedures, almost any decorative art project can be achieved. Use your own drawings or patterns supplied by the instructor. You pick the subject. Stop by during class hours on Monday and Thursday to observe the class in process.

YOUNG REMBRANDTS ELEMENTARY DRAWING

Drawing-All children can, and should, learn how to draw. Our elementary-age curriculum is designed to teach basic to advanced drawing skills, art techniques and vocabulary in a positive and nurturing environment that brings out the best in each child. We believe that drawing is the foundational skill required for future artistic success. Children are taught the skills they need to express their creativity through two-dimensional art. At the end of each class, students will leave with a complete drawing. No prior art class experience necessary. All materials are supplied by Young Rembrandts. New lessons each class and each session.

Cartooning-Learning how to draw can be fun, especially when we create silly characters, funny expressions, and drawing sequences that tell a joke! This delightful program combines Young Rembrandts' innovative, step-by-step drawing method with light-hearted subject matter that engages children's sense of humor and imagination. New lessons are presented each class, and each session. No prior art class experience necessary. All materials are supplied by Young Rembrandts. Class meets once a week for 4 weeks.

Group lessons are limited to 5 students per instructor, are 25 minutes in length and follow American Red Cross guidelines. Please refer to the *activenet* schedule to make your selection early. Swimmers of all ages can easily choose a class that will be motivating and challenging as well as appropriate for their present skill level. **Classes with 3 or less students may be combined or cancelled.**

Level 1-Minnow

Must be 36" to the chin and willing to get in the water or pass evaluation by a City of Lodi Swim Instructor. This class helps students explore the water safely while learning basic water skills. "Minnow" skills include safe entries and exits, water adjustment, submerging face, floating, locomotion with walking and kicking, and arm strokes.

Level 2-Seahorse

Children can successfully demonstrate Level 1 skills or able to fully submerge independently. "Seahorse" swimmers begin to learn the primary skills needed to master all strokes including unassisted floats, glides, combined arm and leg skills on front and back. Crawl, elementary back stroke and back crawl will be introduced as well as sculling and treading.

Level 3-Jelly Fish

Children can successfully demonstrate Level 2 skills or able to float and swim independently on front and back. At this level stroke development is our main focus. "Jellyfish" will refine crawl stroke with side breathing, and continue elementary back stroke and back crawl. Under water swimming, dives, turns and an introduction to breast and side stroke are also included.

Level 4-Otter

Children can successfully demonstrate Level 3 skills or able to swim 15 yards crawl stroke with side breathing and 15 yards back crawl. This level takes all strokes and skills to a higher proficiency level and teaches students how to confidently apply them in various aquatic activities. "Otters" will perfect crawl, back, breast and sidestroke, and learn appropriate turns for each stroke, treading, water rescue skills and application of skills for endurance and survival.
