

COVID-19 Vaccine Interest Form Frequently Asked Questions

- **What does it mean to sign up?**

San Joaquin County residents who want to receive the COVID-19 vaccine can now submit their contact information through an online interest form to be notified when doses are available for their tier.
- **What if I already signed up on MyTurn.Ca.Gov?**

The State of California is developing a similar system, myturn.ca.gov, but it is currently not operational in much of the state. More information about that system will be released as it becomes available.
- **What if I don't have an email address?**

You can use anyone's email address and the same email address can be used for more than one person.
- **What if I don't have an address?**

If you are without a home address may use the address of any San Joaquin County based organization that has provided you support services in the past. If no other address is available, you may use the main San Joaquin Public Health Services location: 1601 E. Hazelton Ave, Stockton, CA 95205.
- **When will I be notified?**

Vaccination appointments, while still limited, are being expanded to some in Phase 1B Tier 1 in the coming days and weeks. Priority groups, as laid out by the California Department of Public Health, will be used to make appointments.
- **What if I don't get a confirmation?**

When the system encounters an address it cannot match, it will ask the user to double-check and possibly correct the address they entered the first time. If they simply hit the "Next" key again, it will accept the address as is so long that the zip code is one of the zip codes in San Joaquin County. A zip code outside of the County will not be accepted.
